The described risk operations include HVAC installation, plumbing coordination, and mechanical maintenance services at retail and commercial premises.

Test-data notice: This is a synthetic, fictional document for software testing only. It does not reproduce proprietary insurance forms, does not contain real PII, and is not legal, claims, tax, or coverage advice.

CGL coverage form - occurrence basis

Field	Value
Document ID	002
Document Category	Policy and coverage documents
Scenario	Main property damage claim
Prepared For	IntelliDoc end-to-end testing
Synthetic Claim Number	CGL-PD-26-0518-0097

Document Data

Field	Value
Form Style	Synthetic CGL occurrence coverage summary
Coverage A Trigger	Property damage caused by an occurrence during the policy period
Territory	United States
Applicable Claim	CGL-PD-26-0518-0097

Narrative / Content

This document is not copied from any ISO or carrier form. It is a simplified coverage summary for test automation. For the test scenario, a sudden water discharge is alleged to have caused physical injury to third-party property. The event date is within the policy period and is treated as one occurrence for routing and coverage review.
